National Luggage Dealers Association

The National Luggage Dealers Association (NLDA) was formed more than 85 years ago, by a forward thinking group of individual and independent luggage dealers. The purpose of the organization was to improve the buying power of the many stores it represented, giving the individual store owners the ability to compete with larger companies and department stores. Many of the founding members continue to be represented today by successive generations of family members.

Outdoor Industry Association

Outdoor Industry Association was founded in 1989 by a few visionary outdoor industry professionals who realized that “outdoor” was beginning to be recognized as more than just a passing consumer trend. They created OIA to preserve and promote standards for their industry. More than two decades later, our core purpose remains the same today.
